Campanile

Take a long and longing look at this exciting new grouping. It all started from the art and architecture of pre - Renaissance Italy, but it took Drexel to translate it into bedroom beauty. Bold lines against delicate carvings and hand work, to rival the work of old world craftsmen. Magnificent woods of pin knotty walnut veneers and rich andiroba solids accent the design period. Choose from two outstanding finishes. One, a rich warm brown, is a credit to the cabinet-makers art. The other, a heavily brushed white, striped in old yellow and apricot, is specially treated to add hundreds of years to a great new finish. Dresser and chest tops have a darker brushed border striped in burnished gold. Now, come see how little it costs to put all this luxury into your life!

DREXOTHANE® STORY

Drexothane is the mark of modern technology making possible design motifs heretofore impossible except in one-of-a-kind pieces. Technically, a high density rigid urethane cellular material, Drexothane was developed by Drexel to provide a new freedom for design.
